AUTOMATED WEIGH & DISPENSE TECHNOLOGY

DRAMATICALLY REDUCE COSTS AND SIGNIFICANTLY IMPROVE PRODUCTION ACCURACY

Rockwell Automation and Grantek Systems Integration have teamed up to deliver an engineering solution that dramatically reduces costs while increasing production accuracy and compliance.

Now you can automate several aspects of your Weigh & Dispense operations, including work order management, material

tracking and batch record keeping. In a typical compounding suite, you could cut your resourcing requirement in half, saving the cost of your investment annually.

For a quick, no obligation estimate of the savings and rapid ROI you can enjoy, call us today at 1-877-634-0844. Or visit us at www.grantek.com/roi

A CLOSER LOOK AT THE BENEFITS OF A ROCKWELL/GRANTEK INTEGRATED SOLUTION, SPECIFICALLY DESIGNED FOR THE PHARMACEUTICAL INDUSTRY.

Reduce Material and Operational Cost

- Reduce WIP and inventory levels with tight controls and optimization of the production process
- Build and modify applications faster and more easily with built-in graphical tools
- Reduce waste and workforce labour Improve Production Management
- Optimize the weigh and dispense operations to free up capacity
- Store historical production data for regulatory compliance, recalls and environmental impact

Tracking and Traceability

- Protect your workers, products, equipment and customers
- Preserve the integrity of your brand
- Track production and genealogy

Reduce the Risk of Non-Compliance

- Ensure tighter control of the production process
- Guide operators through complex weighing operations
- Enforce the use of qualified equipment
- Deliver accurate quantities of active ingredients and compensation materials through automatic calculations

Deploy Quickly

- Achieve cost-effective, flexible deployment and easier integration with business and automation systems with service-oriented architecture (SOA)
- Leverage a team of qualified specialists who are familiar with the life sciences industry and are ready to deploy your solution
- FactoryTalk® Platform Application Framework provides:
 - Configuration instead of customization
 - Improved overall implementation time
 - Reduced implementation cost and risk
